MOTION: 95-03-05-01

A. Stewart/P. Riggs

To adopt Agenda. CARRIED.

MOTION: 95-03-05-02

A. Genge/G. Stewart

To adopt minutes as circulated. CARRIED.

Gambo Representatives

President, Fred Holloway, welcomed Mayor, Peter Lush and Town Manager, Scott Pritchett from Gambo to our meeting. Mayor Peter Lush indicated strong support for the concerns and goals of our Association. He stated his and his councillors willingness to participate and co-operate with us. The Town of Gambo will be represented at future meetings of our Association.

Draft Proposal re: N.W. River Hydro Development

Copies of the Northwest River Power Development, Environmental Impact Statement Fisheries Component Study were circulated as were copies of a draft proposal strongly objecting to the proposed development.

Since the Fisheries Component Study would require some hours of study - it was relegated for later study by members.

The draft proposal was discussed in some detail; after members were satisfied further discussion was unnecessary, the following motion was proposed.

MOTION: 95-03-05-03

A. Stewart / M. Parsons

That the letter proposed be accepted in principle pending serious objection, by a member or members of the committee, such objections to be made in writing and presented to the Alexander Bay Terra Nova Development Association office by noon, April 13. CARRIED.

Public Meeting

- The Annual Public Meeting and election of officers will be scheduled for Tuesday, May 9, 7:30 PM in the Glovertown Recreational Building.
- The meeting will be advertised in the Beacon, local cable and on radio.

MOTION: 95-03-05-04

M. Parsons / R. Brooking

Meeting agenda be left to Executive. CARRIED.

Gravel Pit on River Bank

This item was briefly discussed and left for a future meeting.

Northwest Brook Culverts

Plans are in place to have highways and DFO investigate the problem with a view to correcting the culvert obstructions on North West Brook.

Incubation Facility

- Eggs are doing well, 96% survival rate.
- Formal opening being planned for the last two weeks of the year when Glovertown and 7 other schools which have salmon fry will return them to the Terra Nova River System.
